

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

### Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

### About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. **TREASURY DEPARTMENT,  
BUREAU OF STATISTICS,  
Washington, D. C., December 14, 1897.**

**SIR:** I have the honor to submit to you for transmission to Congress the twentieth issue of the Statistical Abstract of the United States. It will be unnecessary to specify the many changes in form or matter by which new tables have been introduced and old statements made more comprehensive. Every effort has been made to secure accuracy and a compact treatment of all matters subject to statistical record by the various divisions of the Government service. Each issue marks the inclusion of new statements, some of which are based upon the labors of specialists not in the service of the Government—labors that have commended themselves by their intelligent purpose and meritorious performance. While conscious of some omissions yet to be made good, I can not but feel that the Abstract compares well with similar issues by other governments.

**WORTHINGTON C. FORD,  
Chief of Bureau.**

**Hon. L. J. GAGE,  
Secretary of the Treasury.**

a The cost of collecting the internal revenue embraces the following items: Salaries and expenses of collectors, including pay of deputy collectors, clerks, etc., and including expenses incident to enforcing the provisions of law taxing oleomargarine; salaries and expenses of revenue agents, surveyors of distilleries, gangers, storekeepers, and miscellaneous expenses; paper for internal-revenue stamps, and expenses of detecting and punishing violations of internal-revenue laws.

b The expenses of collecting the revenue from customs includes all sums drawn from the appropriation made by Congress for that purpose. The money is expended for salaries, rents, labor in weighing, gauging, and measuring imported merchandise, revenue boatmen, repairs, and other expenses incident to rented buildings, stationery, and the traveling expenses of special agents, but does not include expenditures for revenue cutters, fuel, lights, water, furniture, janitors, etc., for buildings owned by the Government, nor expenditures for erecting new buildings, all of which are paid for from specific appropriations made for those purposes.

The expenses of collecting internal and customs revenue do not include the expenditures for salaries, etc., incident to auditing these accounts in the Departments at Washington.

NOTE.—Receipts at New York, Portland, Boston, Philadelphia, and Baltimore include shipments from the West to foreign countries through these ports on through bills of lading. Receipts at Portland via Montreal are duplications of receipts reported at Montreal. Receipts at Baltimore include flour ground by city millers (419,234 barrels in 1896), and, therefore, duplicate an equivalent quantity of wheat received in grain. Receipts at New Orleans do not include shipments of oats and corn through that port to foreign countries on through bills of lading.

Grain embraces flour as wheat, wheat, corn, rye, oats, barley, malt, and pease.

a "Long" tons, 2,240 avoirdupois pounds; short tons, 2,000 avoirdupois pounds.  
 b Iron ore 1892: 16,296,660 long tons; value at mines, \$33,204,806. Iron ore 1893: 11,587,029 long tons; value at mines, \$19,265,973. Iron ore 1894: 11,979,679 long tons; value at mines, \$13,577,225. Iron ore 1895: 15,937,614 long tons; value at mines, \$18,219,684.  
 c \$1,200 per ton.  
 d Commercial value: 1895, \$36,445,000; 1896, \$39,655,000.  
 e \$20 per ton.  
 f Including copper made from imported pyrites.  
 g The product from domestic ores only.  
 h 104,760 avoirdupois pounds net.  
 i Including nickel in copper-nickel alloy, and in exported ore and matte.  
 j Not reported.  
 k By "spot" value is meant value at the point of production.  
 l Including brown coal and lignite, and anthracite mined elsewhere than in Pennsylvania.  
 m Of 43 gallons.  
 n Estimated from census returns. Value of clay products in 1894, \$64,575,385; in 1895, \$65,319,806.  
 o Of 300 pounds for natural cement, and 400 pounds for artificial Portland.  
 p Of 280 pounds net. The reduced price in 1893 is due to omitting cost of packages.  
 q Including metallic paints, ochre,umber, venetian red, stenna, ground soapstone, ground slate, and mineral black.

a Including small lots mined in Colorado and New Mexico.

b Product combined with that of Georgia.

c Amounts marketed only prior to 1880, after 1888 the entire product of the mines.

NOTE.—The statistics for 1880 are derived from the United States Census; for 1886, from data collected and estimates made by Mr. Frederick E. Seward, editor of the Coal Trade Journal of New York, and from 1887 to 1896, from Mineral Resources of the United States, published by the United States Geological Survey.

NOTE.—This table differs from Table No. 83, on page 326 of Statistical Abstract for 1895, in the respect that all statistics of elevated roads in the State of New York are omitted; and from Table No. 89, on page 323 of the Statistical Abstract for 1896, because of the elimination of the statistics of the South Side Rapid Transit R. R. of Chicago, for same reason that New York elevated roads are omitted.

The greatly increased mileage since 1880 is principally due to the fact that in 1881 the Western Union Telegraph Company absorbed by purchase all the lines of the American Union and the Atlantic and Pacific Telegraph companies, the former having previously in operation over 12,000 miles of line and the latter 8,706 miles. Capital stock of the Western Union, \$100,000,000.

The Western Union has exclusive contracts with several international cable companies, operating eight Atlantic cables, and guarantees 5 per cent annual dividends on the stock of the American Telegraph and Cable Company; amount, \$14,000,000.

Besides the above, there are new lines of telegraph which have complied with the United States telegraph act of 1866, and are operating wires with or without connection with railway companies.

The New York Mutual Telegraph Company, established in 1881, has about 8,000 miles of line, 60,000 miles of wire, 1,200 offices, and has extended its lines north and south, operating from Boston to Chicago, St. Louis, Washington, etc. Capital stock, \$2,500,000. This line is now leased and operated by the Western Union Telegraph Company, at a rental of 6 per cent per annum on the stock.

The Baltimore and Ohio Railroad Telegraph, having lines coextensive with its railway system and branches, besides many newly extended wires south and west, constituting 6,711 miles of line and 54,087 miles of wire, was purchased in 1887 for \$5,000,000 by the Western Union Company, which now owns and operates it.

The lines of the American Rapid Telegraph Company, comprising 2,684 miles of poles and 20,370 miles of wire, and extending from Boston to New York, Washington, and Chicago, have been purchased by the Western Union Telegraph Company for \$550,000 in its stock at par. These lines have been operated by the Western Union Company under a lease since July 10, 1885, as a part of its system.

The Northwestern Telegraph Company owns 8,000 miles of wire. It is leased to the Western Union for ninety-nine years, which guarantees dividends (6 per cent after 1896) and interest on bonds.

The aggregate mileage of telegraph lines which carry varying numbers of wires, according to the business requirements of the localities through which they run, in the United States open for public business exceeds 210,000 miles, besides railways, Government, private, and telephonic lines; length not ascertainable.

NOTE BY MESSRS. MAUGER & AVERY.—This table exhibits in a concise form the prices of the three grades of a standard domestic fleece wool in the seaboard markets at the beginning of each quarter. In its present shape it is deemed to be intelligible to all interested in wool. In the special features of character and condition, "Washed Ohio Fleece Wool" is less subject to variation than any other description, and thus is more a basis of value than any other class. Wool, owing to its wide variety, difference in character and condition, and liability to shrink in cleaning, is precluded from speculative operations which apply to products which may be dealt in as "futures." For these reasons the prices of wool are not liable to the same changes as cotton, wheat, etc.
